	Examiner Curtis E. Sherrer, Esq.	Art Unit 1761	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 6 is indefinite because the scope of the phrase “basic area” is unknown.

For the purposes of this action, it is given a very broad interpretation.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1, 7, 9-11, 16, 26, and 27 are rejected under 35 U.S.C. 102(a) as being anticipated by Mitani *et al.* (WO98/15612)(“Mitani”) for the reasons set forth in the last Office action.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1761

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 6-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Pest (German Pat. No. 548,187).

Pest teaches a cooling device for beer worts with a cone-shaped distribution plate and a tube coiling under the distribution plate. (See claims). The figures show that the top of the cooler is attached to counter weights that can raise the top. This would then raise the feed pipe (h).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mitani for the reasons set forth in the last Office action.

Claims 17-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mitani in view of applicants' admissions (pages 1 and 2) for the reasons set forth in the last Office action.

Response to Arguments

Art Unit: 1761

Applicants' arguments filed 10/25/04 have been fully considered but they are not persuasive.

Applicants argue that the cited art fails to anticipate the rejected apparatus claims because it does not teach a pipe for feeding wort onto a guiding screen. When interpreting the claims broadly, it is considered that Mitani does teach this limitation. The pipe positioned above the screen could act as intended. Further, with respect to the process claims, the claims are not limited to feeding the wort from above onto a guiding screen and therefore a reference, such as Mitani, that teaches feeding a wort from below, meets the limitation.

Applicants also argue that no heating means are taught by the cited patent. The patent clearly teaches heating means. If applicants are narrowly interpreting the claims to recite that the screen contains the heating means, then they should so limit the claims.

With regard to the obviousness rejection, applicants argue that the cited reference does not teach certain limitations, such as the size and angle of the screen. As stated in the last Office action, such details are within those of skill in the art to optimize so as to heat the wort in the most efficient manner.

Allowable Subject Matter

Claim 5 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Art Unit: 1761

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
